East Northamptonshire Council

in partnership with FCC Environment

SUNSHINE FOR OUR KEY WORKERS

To help us brighten up the district and celebrate the work of our fantastic bin crews, we would love you to colour in the picture below and leave it out on your bin when it's next collected.

To say thank you, every child who leaves us a picture will receive a packet of sunflower seeds for them to plant in gardens, window boxes and pots across East Northants.

Plus, at the end of the growing season, FCC Environment is offering a prize to the grower of the tallest flower. If you send us a photo of your beautiful sunflowers to **waste@east-northamptonshire.gov.uk**, you could win a prize!

We are also encouraging all other ages to create sunflower art so that we can spread a little bit of sunshine to all our key workers. So let your creativity shine, a collage from recycled materials or a fine art sketch, we want to see all your sunflowers in all their glory!

Please spread the word as there are key workers everywhere that need some sunshine right now.
