CAPITAL VALLEY
PLASTICS & RECYCLING

Are you wondering what to do with all your unwanted Polythene? In particular the Polythene that can't be collected by the local council? Maybe we can help you!

Our goal is to make a real difference by collecting household Polythene waste from the public to help prevent the increasing volume of plastic pollution in landfill and in the oceans.

We are installing a large waste bin at our Blaenavon site where the general public can visit to dispose of suitable Polythene waste.

Typical Household waste Polythene we accept includes:

- Any 5p or 10p carrier bags/bags for life
- Bubble wrap (preferably popped)
- Bread bags
- Outer packaging of drinks cans or cartons
- Six pack rings
- Any clean, stretchy plastic that carries the recycling logos

4 LDPE 2 HDPE

Collection points:

For more information on our collection points please visit our website, social media or give us a call on **01495 772255**

CVP recycling **capitalvalleyplastics.com**

We are based in Cwmavon (near Blaenavon, Pontypool) and our recycling plant is based in Blaenavon.

Please email us or give us a call for more information.

Capital Valley Plastics Limited
Cwmavon Works
Cwmavon near Pontypool
Gwent
NP4 8UW

The plastic donated must be STRETCHY, clean and have one of the recycling symbols (shown on the front page) printed on it.

IMPORTANT:
Please pull apart the plastic in your hands and if it stretches then it may be suitable for recycling, if it tears or feels 'crispy' unfortunately we cannot accept it.

We ask that you carefully check to make sure that the donated plastic is the correct material that we are able to use. Otherwise it will contaminate the material we collect making it unusable and possibly cause damage to our recycling machine. Resulting in the donated plastic having to go to waste and eventually into landfill.

We also ask that the plastic contains no food, sand or dirt, and that any paper labels have been removed. Wire ties found on bread bags or any zip locks on food packaging must be cut off the bag prior to donation.

If the packaging is labelled **not yet recycled** then we would ask you to dispose of it in your general household waste, as it could contain a material which could contaminate the end products.

IF IN DOUBT, THROW IT OUT!

Unaccepted Materials

We understand that changing everyone's views on how to recycle their waste is a steep learning curve and it will take some time to know exactly what can and can't be recycled by us. A lot of the items below are already being collected by the local councils.

Here are some examples of what **CANNOT BE RECYCLED** by Capital Valley Plastics:

- Salad/food bags that **aren't stretchy**
- Raw or cooked meat packaging
- Plastic bottles or lids
- Polystyrene of any kind
- Plastic plates or cutlery
- Old lighters
- Bio degradable dog poo bags
- Cling film
